

# ADEL VETERINARY CLINIC

MEDICINE • ACUPUNCTURE • BOARDING

Dr. Elizabeth Holland - Dr. Lisa Kilgore - Dr. Nicole Powers - Dr. Amanda Steffen

## Canine Neuter:

We recommend spaying pet's for three major reasons:

1. No unwanted pregnancies
2. Reduces your pet's risk for prostate or testicular cancers
3. Helps to reduce aggression or marking behaviors

\*If you are concerned about your pet going under anesthesia **please** chat with our team, it's what we are here for. We understand your concerns, & want to do what's best for both you & your pet.

We have found it to work best to just do a price range over an exact cost for this type of procedure:

**\$360 - \$600**

\*Factors that would cause the price to increase would be is the size of your pet, if a scrotal tack is necessary, if you request a microchip, if your pet has an umbilical hernia, or suffers from cryptorchidism. If for some reason we expect it to be more than this range we will reach out to you. If financial assistance is needed please know we do accept Care Credit & Scratchpay, just apply online for pre-approval. We look forward to getting your pet scheduled today!
