

# ADEL VETERINARY CLINIC

MEDICINE • ACUPUNCTURE • BOARDING

**Dr. Elizabeth Holland - Dr. Lisa Kilgore - Dr. Nicole Powers - Dr. Amanda Steffen**

## Feline Neuter:

**We recommend spaying pet's for three major reasons:**

1. No unwanted pregnancies
2. Reduces your pet's risk for prostate or testicular cancers
3. Helps to reduce aggression or marking behaviors

\*If you are concerned about your pet going under anesthesia **please** chat with our team, it's what we are here for. We understand your concerns, & want to do what's best for both you & your pet.

**We have found it to work best to just do a price range over an exact cost for this type of procedure:**

**\$603 - \$680**

\*Factors that would cause the price to increase would be if you wish to have a microchip (\$71.00), or if your pet suffers from an umbilical hernia, cryptorchidism, or baby teeth. **If blood work has been completed within the last month, this price could decrease (approximately \$210-\$270).** If for some reason we expect it to be more than this range we will reach out to you. If financial assistance is needed please know we do accept Care Credit & Scratchpay, just apply online for pre-approval. We look forward to getting your pet scheduled today!
